

# ECLIPSE PHASE

## SUNWARD: THE INNER SYSTEM

ISBN: 978-1-934857-40-3 MSRP: \$39.99 PAGES: 160 [Color, Hardcover] CATALOG #: CAT21200 RELEASE: Q1 2010

**Eclipse Phase** is a post-apocalyptic game of conspiracy and horror. Technology allows the re-shaping of bodies and minds, but also creates opportunities for oppression and puts the capability for mass destruction in the hands of everyone. And other threats lurk in the devastated habitats of the Fall, dangers both familiar and alien.

In this harsh setting, the players participate in a cross-faction conspiracy called Firewall that seeks to protect transhumanity from threats both internal and external. Along the way, they may find themselves hunting for prized technology in a gutted habitat falling from orbit, risking the hellish landscapes of a ruined earth, or following the trail of a terrorist through militarized stations and isolationist habitats. Players may even find themselves stepping through a Pandora Gate, a wormhole to distant stars and the alien secrets beyond....

### COMPATIBILITY:

- This core setting book requires the **Eclipse Phase** core rulebook

### SELLING POINTS:

- Details the inner regions of the solar system, from habitats in the solar corona to transhumanity's largest population centers on Mars. Habitats and plot seeds are provided for each of the inner worlds and the factions that occupy them.
- Provides background and information on the Planetary Consortium, the most powerful political and economic force in the solar system.
- Explores numerous conflicts and threats that might be used as adventure plot seeds, from tensions over the terraforming of Venus to Reclaimer efforts to recolonize a ruined Earth despite the blockade.

### TARGET MARKET:

- **Eclipse Phase** gamemasters looking for information to present and flesh out core elements of the **Eclipse Phase** setting.
- **Eclipse Phase** players seeking more background on their characters' home worlds and factions.
- **Eclipse Phase** gaming groups interested in focusing their campaigns on the aerostats of Venus, the hellish surface of Mercury, the crowded colonies of Luna, the cosmopolitan habitats of Mars, or any of the other intriguing stations orbiting between the sun and asteroid belt.
